

LWETB FET QUALITY STATEMENT

LWETB is committed to the development and implementation of quality assurance policies and procedures which are efficient, well-communicated and integrated into our normal activities with minimum unnecessary administrative requirements while ensuring accountability and enhancement. All programmes of further education and training within LWETB, regardless of whether or not these lead to QQI awards, other awards recognised within the National Framework of Qualifications (NFQ) or awards of other awarding regulatory or statutory bodies will be quality assured using the new system.

Successful implementation of our quality system will provide information to assure all stakeholders of the quality of our further education and training provision and provide advice and recommendations on how we might improve on what we are doing. This quality assurance and quality enhancement will support the development of a quality culture which is embraced within LWETB.

Quality in LWETB is embedded in our vision, mission and values.
